PROFESSIONAL SUMMARY

Recent BS Computer Science graduate with hands-on experience building responsive web applications, AI-powered systems, and ecommerce solutions. Skilled in HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, PHP, MySQL, and GitHub, with practical experience delivering a live Shopify client project and developing a comprehensive AI-driven student career guidance platform. Passionate about creating clean, user-friendly, and performance-focused web experiences.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, jQuery
Backend	PHP, MySQL
Tools & Tech	Git, GitHub, XAMPP, AJAX, Google Gemini API Integration (basic), Shopify Theme Customization
Concepts	Responsive Web Design, RESTful UI Development, Cross-Browser Compatibility, Mobile-First Design

PROJECTS

AI-Driven Student Performance & Career Guide System	HTML · CSS · JavaScript · jQuery · AJAX · PHP · MySQL
- Developed a web-based platform that helps students track academic performance, manage goals, and visualize progress. - Implemented authentication, subject and marks management, goal tracking, analytics dashboards, and career planning modules. - Designed an AI-assisted career recommendation workflow that analyzes student interests and academic data to suggest suitable career paths and learning roadmaps.	
Shopify Client Project – KHAAB (Paid Client Work)	Shopify · Liquid · CSS · JavaScript
- Configured and customized a live Shopify store for a fashion brand based on client requirements. - Built custom theme sections, modified layouts, improved responsiveness, and implemented requested revisions. - Successfully delivered a production-ready ecommerce website for a real paying client.	
Responsive Skincare Landing Page	HTML5 · CSS3 · Tailwind CSS · JavaScript
- Created a modern, mobile-friendly ecommerce landing page with interactive UI elements and polished user experience. - Implemented testimonial sliders, FAQ accordion, smooth scrolling, and responsive layouts optimized for multiple devices. - Focused on clean design, usability, and frontend best practices.
